Create a Disaster Plan.....	2
Make a Disaster Supply Kit.....	4
Put your plan into action.....	8
Home Emergency Diagram	9
Practice and maintain your plan.....	10

Emergency Phone List

Wallet Card

This Family Emergency Preparedness Plan – Workbook is designed to be used in conjunction with the Family Emergency Preparedness Plan Reference Guide.

This workbook should be filled out – one per family – and then reviewed and updated every 6 months.

The Family Emergency Preparedness Plan was originally developed by the Office of Emergency Preparedness Group at Group Health Cooperative of Puget Sound, et al. The Wood County Health Department made updates and revisions. Funding for revisions and publication were made possible by federal Public Health Emergency Preparedness grants.

To obtain additional copies of this workbook, or the reference guide, contact your local public health department.

3. Create a Disaster Plan

Communication

Ask a friend or relative who does not live in the area to be your “out-of-area contact”. Long distance phone calls may go through when local lines and cell networks are down or jammed. List this person's contact information on your Wallet Cards and Emergency Phone List.

Pick two places to meet.

1. Right outside your home in case of a fire.

2. Outside of your neighborhood in case you can't return home, or must evacuate.

3. Write these meeting locations and phone numbers on your Wallet Cards and Emergency Phone list.

Choose a location to leave a note if you evacuate.

Choose a code word to use with children if you must send someone else to pick them up.
_____ (Be sure to quiz them on this frequently).

Verify with schools and day cares that appropriate people are listed to pick them up, if you cannot.

Potential Disasters:

Meet with your family and discuss why you need to prepare for emergencies and disasters. Discuss the types of disasters that are most likely to happen. Explain what to do in each case.

Write down what to do in an evacuation

Fire

Nuclear

Write down what to do in a Chemical Release

Write down what to do in Biological Release

Create a Disaster Plan - - - Continued

Sometimes it may be safer to stay where you are and “shelter in place”. See page 13 of the *Family Emergency Preparedness Plan Reference Guide* for more information.

Write down what to do to “shelter in place” for a:

Tornado

Communicable Disease (This may mean you must stay home for up to 10 days.)

Winter Storm

Power Outage

If you are required to go to work to assist in an emergency, or cannot get home, who will be available to help you? Keep in mind that you may need this during the middle of the night, weekends, on short notice, or for extended hours.

List several sources of help.

_____	_____
_____	_____
_____	_____

Put these resources and their phone numbers on your Emergency Phone List.

If you have pets or farm animals, complete the Animal Emergency Plan on page 3 of the Family Emergency Preparedness Plan Reference Guide.

If you have people with special needs, complete the Special Needs Emergency Plan on page 6 of the Family Emergency Preparedness Plan Reference Guide.

4. Make a Disaster Supply Kit

There are nine basics you should stock in your home: water, food, medication, first aid kit, tools and supplies, sanitation items, clothing and bedding, special items and important family documents. Keep the items you will most likely need during an evacuation in an easy-to-carry container such as a large, covered trash container, camping backpack or duffel bag. Keep a smaller version of the disaster supplies kit in the trunk of your car.

Water

- Store one gallon of water per person, per day
- Have purifying agents available. See page 10 of the reference guide for purification information.

Food

- Store at least a three day supply of non-perishable food for each person.
- Select foods that do not require refrigeration, cooking or preparation.
- Select food items that are compact and lightweight. Label the items with the date to rotate.
- Check dates for rotating every 6 months.
- Ready to eat canned meats, fruit and vegetables
- Soups – bouillon cubes or dried soups in a cup
- Milk – powdered or canned
- Stress foods – sugar cookies, hard candy
- Can opener

How to store water

Store your water in thoroughly washed plastic, fiberglass or enamel-lined metal containers. Never use a container that has held toxic substances. Plastic containers, such as soft drink bottles, are the best. You can also purchase food-grade plastic buckets or drums.

Seal water containers tightly, label them and store in a cool, dark place. Replace every six months.

Medications

Be sure to rotate medication from your supply kit with those you regularly use, and place fresh medication in the supply kit!

- Medication for a fever (Tylenol, Ibuprofen etc)
- Antacid
- Laxative
- Anti-diarrhea medication
- Cough medicine
- Cold medicine
- Antihistamine (Benadryl , etc)
- Prescription medications (10 day supply)
- Rubbing Alcohol
- Hydrogen Peroxide
- Syrup of Ipecac (to induce vomiting if advised by Poison Control)
- Activated charcoal (use if advised by Poison Control)
- Eye wash
- Lotion for itching / rash (Calamine, Benadryl, etc)

Family Emergency Preparedness Plan

First Aid Kit

You should have two first aid kits – one for your house, and the other for your car. This kit should include:

- Sterile adhesive bandages in assorted sizes
- 3-inch sterile gauze pads (8-12)
- Triangular bandages (3)
- Surgical gloves (2 pair)
- Scissors
- Needle (sewing type)
- Tweezers
- Antiseptic spray
- Tongue blades and
- Wooden applicator sticks
- Assorted sizes of safety pins
- Surgical masks (2)
- 2-inch sterile gauze pads (8-12)
- Hypoallergenic adhesive tape
- 2 & 3-inch sterile roller bandages (3 rolls each)
- Tweezers
- Safety razor blade
- Moistened towelettes (8-10 packages)
- Non-breakable thermometer
- First Aid Guide
- Cleansing agent - soap or alcohol gel

Tools and Supplies

- Mess kits, or paper cups, plates and plastic utensils
- Battery operated radio and extra batteries
- Fire extinguisher, small canister, ABC type
- Pliers
- Compass
- Map of area
- Aluminum foil
- Signal flare
- Needles, thread
- Shut-off wrench for gas and water
- Plastic sheeting
- Family Emergency Preparedness Plan
- Flashlight and extra batteries
- Paper and pencil
- Utility knife
- Whistle
- Matches in a waterproof container
- Medicine dropper for adding bleach to water
- Dust mask and work gloves for each person
- Duct tape

Family Emergency Preparedness Plan

Sanitation

- Toilet paper, towelettes
- Feminine supplies
- Plastic garbage bags, ties
- Plastic bucket with tight lid
- Household chlorine bleach (unscented)
- Soap
- Personal hygiene items
- Disinfectant

To make an emergency toilet, place a plastic garbage bag inside a 5 gallon plastic bucket. Place a small amount of bleach in the plastic bag, after each use. Cover tightly. After several uses, change to a new bag. Bags should then be placed in another bag, until they can be properly disposed of.

Clothing and Bedding

Include at least one complete change of clothing and footwear per person

- Sturdy shoes or work boots
- Blankets or sleeping bags
- Thermal underwear
- Rain gear
- Hat and gloves
- Sunglasses

Special Items for Special People

Remember family members with special needs such as infants, elderly, or disabled individuals.

For Baby

- Formula (Ready-Made)
- Bottles
- Medications
- Diapers
- Powdered milk
- A few toys and snacks

For Children and Adults

- Prescription medications
- Contact lenses and supplies
- Entertainment -- games, cards, crossword puzzles etc.
- Extra eye glasses

For more on items for people with special needs, see the next page of this workbook.

Important Family Documents -- Keep these records, or copies, in a waterproof portable container.

- Will, insurance policies, contracts, deeds, stocks and bonds
- Cash
- Bank account numbers
- Inventory of valuable household goods
- Passports, social security cards, immunization records
- Credit card account numbers and companies
- Family records (birth, marriage, etc)
- Important telephone numbers

Family Emergency Preparedness Plan

Supplies and Equipment for those with Special Needs

Be sure to check equipment every six months when you review your plan. Rotate medicines, batteries, and supplies that will expire into the items you use regularly, and put fresh items into the emergency supply kit.

Check items you use, describe them, and list location

- Glasses: _____
- Eating utensils: _____
- Dressing devices: _____
- Writing devices: _____
- Hearing devices: _____
- Oxygen: _____
- Flow rate: _____
- Suction equipment: _____
- Dialysis equipment: _____
- Sanitary supplies: _____
- Urinary supplies: _____
- Ostomy supplies: _____
- Wheelchair:
- Repair kit _____
- Motorized _____
- Manual _____
- Walker: _____
- Crutches: _____
- Cane(s): _____
- Dentures: _____
- Monitors: _____
- Other: _____
- _____

Service Animal and Pet Supplies:

- Food
- Extra water and bowl
- Leash/Harness
- Collar
- Medication
- Vaccination and veterinary records
- Name of Veterinarian
- List phone numbers of someone who can care for your animal if you cannot, on your Emergency Phone List and Wallet Card.
- A picture of your pet

Portable Disaster Supplies Kit:

- Written instructions for devices
- Small Flashlight
- Whistle or noise maker:
- Extra medication
- List of prescription medications, dosages and prescribing doctor.
- Extra pair of glasses
- Hearing aid
- Sanitary supplies
- Pad of paper and pencil
- Other _____

5. Put Your Plan In To Action

- Post emergency telephone numbers by phones.
- Teach children how and when to call 911.
- Keep at least one (1) phone that is not a cordless phone to use in a power outage.
- Ask your doctor or pharmacist if you can get an extra supply of your regular prescription.
(Note: be sure to rotate stored medicines out so that they don't expire).
- Conduct a Home Hazard Hunt. (See page 2 of the Family Emergency Preparedness Plan Reference Guide.)
- Show responsible family members how and when to turn off the water, gas heating/cooling systems, and electricity at the main switches. See page 11 of the Family Emergency Preparedness Plan Reference Guide for more information.
- Make an inventory or video tape of valuable items. Be sure that a copy of this is stored in a safe place outside of your home (safe deposit box or with your out-of-area contact).
- Check for adequate insurance coverage.
- Talk to your neighbors to see if anyone has special training or equipment (like a generator). Make a plan for how you can work together.
- Keep enough gas in your car to evacuate.
- Take a first aid and CPR class
- Volunteer with local groups to prepare and assist with emergency response

6. Complete a Home Emergency Diagram

Sketch the floor plan of your home and establish two exit routes from each bedroom. Use the symbols on the bottom of the page to label your sketch with the safe spots for each type of disaster, and emergency equipment and supplies. If there are additional floors in your house, use a blank piece of paper, and clip it into this workbook.

Floor One

Floor Two

Normal Exit Route 

Alternate Route 

Outside Reunion Location 

Tornado Safe Spot 

Fire Extinguisher 

Collapsible Ladder 

Disaster Supply Kit 

Chemical/Biological Safe Spot 

First Aid Kit 

7. Practice and Maintain your Plan

Review your plans every six months, so everyone remembers what to do. Be sure to quiz kids on the family code word, and on where to meet in an evacuation. Write the date the next review is due on the front of this workbook.

When you review your plan, write the date completed in the chart below.

						Date
						Update the phone numbers and info on your Emergency Phone List, and your Wallet Cards
						Conduct a fire drill
						Conduct a “shelter in place” drill
						Test and recharge your fire extinguisher according to manufacturer's instructions.
						Test your smoke detectors and change the batteries, and clean out the dust.
						Replace stored water every 6 months
						Rotate the food every 6 months – as necessary
						Rotate the medications from the emergency kit, into those you use regularly, and put fresh medications in the emergency kit.

Hint: When you set your clocks in the fall and spring, also do your emergency plan updates.
