

KIM HERTZFELD, BACHELORS OF SCIENCE IN PHYSICAL THERAPY

Current/Most Recent Career Position: Physical Therapist

Community of Residence: Perrysburg

I graduated from University of Toledo/Medical College of Ohio in 1992 with a B.S in Physical Therapy. I have worked as a Physical Therapist for thirty years in various clinical settings including; acute care, skilled nursing, outpatient, and home health. I have cared for people at all stages of life, during some of the most difficult times of their lives. I have witnessed and dealt with firsthand the changes that have occurred in healthcare over the years and its impact on the patients, community, and healthcare institutions. I feel I can offer the board the perspective of an actively employed healthcare worker who has experience and knowledge from working in the healthcare system for many years. Physical Therapy involves assessment of problems, development of goals, and formulation of a plan to meet those goals. This can be translated to many facets of life, including being a contributing member to the Board of Health to enhance community health and resources.
