

## BOB MIDDEN, PHD

**Current/Most Recent Career Position:** Research Professor in the  
BGSU Chemistry Department

**Community of Residence:** Bowling Green

I earned a BS degree in Chemistry with a minor in Biology at St. John's University in Minnesota in 1974 and a PhD in biochemistry at Ohio State University, August 1978. I did postdoctoral research in physical organic chemistry with the renowned Dr. Jack Hine who wrote one of the best textbooks on that subject. Then in 1980 I took a position in the Department of Environmental Health Sciences in the School of Public Health at Johns Hopkins University in Baltimore. This is widely considered to be one of the two best Public Health Schools in the country. At Hopkins I helped create a new PhD program in Environmental Chemistry and developed and taught most of the core course in that PhD program. At Hopkins I benefited from collaboration with and guidance by some of the best medical personnel, public health professionals, and scientists in the world, including Nobel Laureates. Please visit my website for much more information about my qualifications and positions:  
<https://bobmidden.com> at BGSU for two years.
