

Sewage Treatment System (STS) Site Review Application

The following must be submitted along with this application:

- A **Soil Evaluation** completed in accordance with OAC 3701-29-07:
 - A qualified soil evaluator must conduct an examination of the soils on your property and will provide detailed information on the required report.
 - A list of Certified Soil Scientist that work in NW Ohio can be obtained through our department.
 - If the lot is not large enough to support an On-Lot STS, the soil evaluation may be waived, contact WCHD prior to a soil evaluation to have a determination made.
- A **Sewage Treatment System Design** completed in accordance with OAC 3701-29-10:
 - A sewage system design plan must be provided for review by the Wood County Health Department.
 - This plan must include proposed layout of the property, layout of components of the proposed STS, how adequate sewage treatment will be achieved in the soil conditions present on the property, etc.
 - A list of qualified professionals that work in NW Ohio can be obtained through our department.
