Her Choice Pregnancy Ctr. (clients only)	419-354-4673

Getting Food, Medications and Other Essentials While Avoiding Contact with Others

If you have been asked to avoid contact with others after an illness exposure, you may need help getting groceries, prescription medications or other necessities. Do not visit stores, pharmacies, food pantries or other public locations during this time.

Groceries and Meals

- Ask a friend, family member or neighbor to shop for you and leave items outside your door.
- Use grocery or meal delivery when available. Choose contact-free delivery and ask that items be left outside your door.
- If you need food assistance, call a local food pantry before visiting. Explain that you have had an illness exposure and ask whether someone else can pick up food for you or if another arrangement is available.

Prescription Medications

- Call your pharmacy and ask about home delivery, mail delivery or curbside options.
- Ask whether a trusted friend or family member can pick up your prescription for you.
- If you are running low on an important medication, contact your pharmacy or healthcare provider as soon as possible.

Mental Health & Emotional Support

Being asked to avoid contact with others can be stressful. You may feel worried, isolated, overwhelmed or concerned about work, finances or your family. You don't have to manage those feelings alone.

- Wood County Crisis Line (Adults 18+) Call **419-502-HOPE (4673)** for 24/7 crisis support.
- Children's Resource Center (Under 18) Call **419-352-7588** for youth crisis support.
- Call or text **988** for 24/7 support during a mental health, emotional or substance use crisis.
- Text **4HOPE to 741741** for crisis support.
- If there is an immediate danger or medical emergency, call **911**.

Need Help Finding a Resource?

Not sure where to find the help you need? Call **2-1-1** to connect with local and regional resources for food, housing, utilities, transportation, health care and other needs.
